**FuturICT 2.0
FLAG-ERA Joint Transnational Call 2016**

Letter of Support. To whom it may concern

I am writing to confirm that Validitylabs.org (Association) expresses strong support for the FuturICT 2.0 project, which is being coordinated by the National Research Council of Italy with the participation of outstanding EU institutions and ETH Zurich in Switzerland.

Validitylabs.org is a leading organization upskilling businesses and service providers with skills necessary for the development of distributed applications ('smart contracts'). Distributed and decentralized applications built on blockchain and associated technologies are a transformational technology underpinning connected, distributed systems of the future.

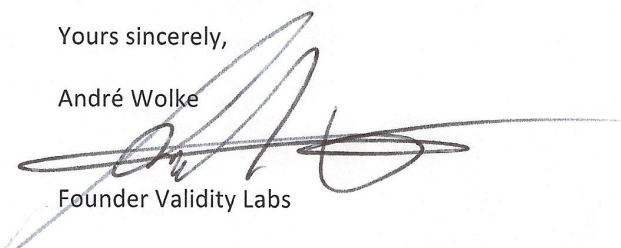

The grand challenges that the FuturICT 2.0 project will demand of the ICT, financial, automotive and other industries will encourage tremendous collaborative innovation to yield the next great scientific and engineering breakthroughs in this sectors and are well aligned with Validitylabs.org own interests.

Validitylabs.org has as its mission to train the workforce of the future in the responsible application of highly resilient, distributed application technologies.

Validitylabs.org is very supportive of the FuturICT 2.0 project and is looking forward to further collaboration, if the project is successfully funded.

Yours sincerely,

André Wolke
