Letter of Support

Ljubljana, September 30th, 2011

To whom it may concern;

This letter is to express the explicit interest of the Jožef Stefan Institute, Jamova cesta 39, 1000 Ljubljana, Slovenia in the FuturICT Flagship initiative. Our Institute envisions to engage in several of the visions sketched out in FuturICT and will involve several of our key scientists. Should FuturICT materialize it is strongly intended to support it institutionally in all possible ways, in particular, in terms of infrastructure, matching projects, and logistically and morally.

With best regards,

Prof. Dr. Jadran Lenarčič,
Director of the Jožef Stefan Institute

 Institut
