LETTER OF SUPPORT

It is my great pleasure to express my sincere support for FuturICT, with which – as you know – we have been and are continuously interacting with, especially in the context of the VIVO demonstrator example and the Innovation Accelerator.

It is greatly helpful for our company to have the opportunity to interact with the FuturICT platform of experts, and participation in this scientific and social network is an important factor for the success of our start up company.

We are hoping for the success of the FuturICT proposal and further fruitful interactions.

Budapest,  
September 27, 2012.
