FuturICT 2.0
FLAG-ERA Joint Transnational Call 2016
Letter of Support

To whom it may concern,

I am writing to confirm that Lykke Corp (Company) expresses strong support for the FuturICT 2.0 project, which is being coordinated by the National Research Council of Italy with the participation of outstanding EU institutions and the ETH Zurich in Switzerland.

Lykke Corp (Company) is a building a global marketplace for all asset classes and instrument with blockchain. The business strategy of Lykke Corp embraces open source software with complete data availability and transparency. Lykke Corp helps IT departments to store, manage, protect and analyse their most valuable asset - information - in a more agile, trusted and cost-efficient way.

The grand challenges that the FuturICT 2.0 project will demand of the ICT, financial, automotive and other industries will encourage tremendous collaborative innovation to yield the next great scientific and engineering breakthroughs in this sector and are well aligned with Lykke's own research interests.

Lykke Corp and its founder, Richard Olsen, who launched Olsen & Associates, has a strong reputation to acquire store, process and disseminate very large data sets, which will be core technology in this project.

Lykke Corp is very supportive of the FuturICT 2.0 project and is looking forward to further collaboration, if the project is successfully funded.

Yours sincerely,

Richard Olsen

Founder and CEO
